Subject: OR CZARA: Draft Response to Comments for Forestry Riparian and Landslides
Attachments: Forestry Riparian Response to Comments 100614.doc

Hi Jeff/Rob--

In case you'd like to have a look, attached are the compiled summary comments and our draft responses to those comments related to forestry riparian and landslide issues. There is one summary comment (D) that specifically mentioned NMFS (see highlighted section).

Our general approach to the response to comments has been pointing to the specific rationale language in the decision document so we do not have to repeat ourselves in two places.

We're still working on finalizing the rationales and response to comments for the for the forestry roads and pesticide issues and will send them your way as soon as they are ready for review.

If you have any comments on this section of Response to Comments, please let me know by Oct. 20th.

Thanks again for all of your support on this.
Allison
